
Publikationsverzeichnis

Dr. rer. nat. Markus Hönicka

10. August 2010

Inhaltsverzeichnis

Originalarbeiten	1
Eingeladene Originalarbeiten	2
Eingeladene Vorträge	2
Vorträge	2
Poster	3
Doktorarbeit	4

Originalarbeiten

1. Hoenicka M., Wiedemann L., Puehler T., Hirt S., Birnbaum D.E., und Schmid C. (2010) Effects of Shear Forces and Pressure on Blood Vessel Function and Metabolism in a Perfusion Bioreactor. *Ann.Biomed.Eng.*
2. Hoenicka M., Schrammel S., Jacobs V.R., Huber G., Schmid C., und Birnbaum D.E. (2009) Tissue Engineering of Small Caliber Vessel Grafts from Human Umbilical Veins. *IFMBE Proceedings* **25/X**, 38-41
3. Hoenicka M., Wiedemann L., Schrammel S., Schmid C., und Birnbaum D.E. (2009) Metabolic Requirements of Blood Vessels in a Perfusion Bioreactor. *IFMBE Proceedings* **25/IV**, 238-241
4. Hoenicka M., Jacobs V.R., Huber G., Schmid F., und Birnbaum D.E. (2008) Advantages of human umbilical vein scaffolds derived from cesarean section vs. vaginal delivery for vascular tissue engineering. *Biomaterials* **29**, 1075-1084
5. Hoenicka M. und Schmid C. (2008) Cardiovascular effects of modulators of soluble guanylyl cyclase activity. *Cardiovasc.Hematol.Agents Med.Chem.* **6**, 287-301
6. Hoenicka M., Lehle K., Jacobs V.R., Schmid F.X., und Birnbaum D.E. (2007) Properties of the human umbilical vein as a living scaffold for a tissue-engineered vessel graft. *Tissue Eng.* **13**, 219-229
7. Lehle K., Hoenicka M., Jacobs V.R., Schmid F.X., und Birnbaum D.E. (2006) Identification and reduction of cryoinjury in endothelial cells: a first step towards establishing a cell bank for vascular tissue engineering. *Tissue Eng.* **12**, 3439-3447
8. Schmid F., Vudattu N., Floerchinger B., Hilker M., Eissner G., Hoenicka M., Holler E., und Birnbaum D.E. (2006) Endothelial apoptosis and circulating endothelial cells after bypass grafting with and without cardiopulmonary bypass. *Eur.J.Cardiothorac.Surg.* **29**, 496-500
9. Jacobs V.R., Niemeyer M., Gottschalk N., Schneider K.T.M., Kiechle M., Oostendorp R.A.J., Peschel C., Hoenicka M., Lehle K., Birnbaum D.E., Meyer T.P.H., Rapp S., Burkhart J., Aigner J., Eblenkamp M., und Wintermantel E. (2005) Das STEMMAT-Projekt als Teil der Gesundheitsinitiative BayernAktiv: Adulte Stammzellen aus Nabelschnur und -blut als Alternative zur embryonalen Stammzellforschung [The STEMMAT project as part of the health initiative BayernAktiv: adult stem cells from umbilical cord and cord blood as alternative to embryonic stem cell research]. *Zentralbl.Gynakol.* **127**, 368-372

10. Lehle K., Hoenicka M., Jacobs V.R., Schmid F.X., und Birnbaum D.E. (2005) Cryopreservation of human endothelial cells for vascular tissue engineering. *Cryobiology* **50**, 154-161
11. Becker E., Schmidt P.M., Schramm M., Schröder H., Walter U., Hoenicka M., Gerzer R., und Stasch J. (2000) The vasodilator-stimulated phosphoprotein (VASP): target of YC-1 and nitric oxide effects in human and rat platelets. *J.Cardiovasc.Pharmacol.* **35**, 390-397
12. Becker E., Wunder F., Kast R., Robyr C., Hoenicka M., Gerzer R., Schröder H., und Stasch J. (1999) Generation and characterization of a stable soluble guanylate cyclase-overexpressing CHO cell line. *Nitric Oxide* **3**, 55-66
13. Hoenicka M., Becker E., Apeler H., Sirichoke T., Schröder H., Gerzer R., und Stasch J. (1999) Purified soluble guanylyl cyclase expressed in a baculovirus/Sf9 system: stimulation by YC-1, nitric oxide, and carbon monoxide. *J.Mol.Med.* **77**, 14-23

Eingeladene Originalarbeiten

1. Jacobs V.R., Niemeyer M., Höpfner C., Schneider K.T.M., Kiechle M., Oostendorp R.A.J., Peschel C., Hönicka M., Lehle K., Birnbaum D.E., Meyer T.P.H., Rapp S., Burkhart J., Aigner J., Eblenkamp M., und Wintermantel E. (2004) Das STEMMAT-Projekt. *Zellbiologie.* **1**, 16-18
2. Hönicka M. und Gerzer R. (1997) Lösliche Guanylylzyklasen. Schlüsselenzyme zum therapeutischen Einsatz des Prinzips NO [Soluble guanyl cyclases. Key enzymes for therapeutic applications of the NO principle]. *Internist.(Berl)* **38**, 427-437

Eingeladene Vorträge

1. Hoenicka M. (2008) Building Vessels. *ESC Congress Munich*

Vorträge

1. Hoenicka M., Wiedemann L., Schrammel S., Schmid C., und Birnbaum D.E. (2010) Differential Effects of Shear Forces and Pressure on Blood Vessel Metabolism and Function in a Perfusion Model, in *6th World Congress of Biomechanics (WCB 2010)*. (Lim C.T. und Goh J.C.H., Hrsg.) pp. 410-413, Springer, Heidelberg
2. Hoenicka M., Schrammel S., Jacobs V.R., Huber G., Schmid C., und Birnbaum D.E. (2009) Tissue Engineering of Small Caliber Vessel Grafts from Human Umbilical Veins. *IFMBE Proceedings* **25/X**, 38-41
3. Hoenicka M., Wiedemann L., Schrammel S., Schmid C., und Birnbaum D.E. (2009) Metabolic Requirements of Blood Vessels in a Perfusion Bioreactor. *IFMBE Proceedings* **25/IV**, 238-241
4. Hoenicka M. (2008) Künstlicher Gefäßersatz aus Nabelschnurvenen. *Deutsche Sporthochschule Köln*
5. Hoenicka M. (2006) Gefäßersatz aus Nabelschnur. *Hedwigsklinik, Krankenhaus Barmherzige Brüder Regensburg*
6. Hoenicka M. (2006) Gefäßersatz aus Nabelschnur. *Siemens Molecular Imaging Erlangen*
7. Hoenicka M. (2005) Nabelschnüre. *Hedwigsklinik, Krankenhaus Barmherzige Brüder Regensburg*

8. Hoenicka M. (2003) Kryokonservierung von Nabelschnurgefäßen - Einfluß auf die Gefäßfunktion. *Krankenhaus Sankt Josef Regensburg*

Poster

1. Hoenicka M., Schrammel S., Huber G., Bronger H., Schmid C., und Birnbaum D.E. (2010) Small-caliber Vessel Grafts Made from Human Umbilical Veins, in *TERMIS-EU 2010 Meeting*. Tissue Engineering & Regenerative Medicine International Society, Baltimore,MD
2. Hoenicka M., Schrammel S., Niemeyer M., Huber G., Schmid C., und Birnbaum D.E. (2010) Developing Human Umbilical Vein as Living Scaffolds for Vascular Tissue Engineering, in *6th World Congress of Biomechanics (WCB 2010)*. (Lim C.T. und Goh J.C.H., Hrsg.) pp. 135-138, Springer, Heidelberg
